Building Relationships Since 1891

Winter 2017

New Years Greetings from Quasius Construction

Before

After

As we look back at 2016, we are grateful for so many things: the opportunity to work with our team of professionals, our many business partners and our valued clients who have made our success possible.

It has been quite a year at Quasius Construction. We certainly have a lot to be thankful for. In 2016, we celebrated our 125th Anniversary. To commemorate the historic milestone, we hosted a party for employees, customers and many of our building partners. Without these valuable relationships, our longevity would not have been possible. The event gave us the opportunity to show off a recently completed Quasius project, The Berkshire at the Black Pig.

The Berkshire is an urban industrial loft space above Black Pig restaurant that accommodates corporate events and weddings for more than 300 people. I may be a bit biased, but it is a great place for an event and you will never leave hungry!

The event also provided an opportunity to show off our new corporate headquarters, located on 8th and St. Clair in downtown Sheboygan. Originally built for Otto Kuechle Home Furnishings in 1928, Quasius

purchased the building in May, began renovations in August, and moved into the new space in November.

After 61 years at 1716 North 16th Street location, it is official—we have moved! Please be sure to note our new address: 1202A North 8th Street.

We are excited to be in the new space

and look forward to showing it off the next time you stop by. You can see more photos of The Berkshire, our new office, and other recent projects on our website (www.quasius.com). We do realize that old habits are sometimes hard to break, so if you find yourself pulling up to our old office, you won't be alone. It has happened to me more than once already!

When you do stop in for a visit in the new space you'll notice another big change in our office. Since April, we've added some great project management talent to our team. In total, we have four new faces in the office, including three project managers: Matt Gabric, Joe Widmann and Dan Cullen, and project engineer, Alisha Daun. They have all brought great experience and talent to our team. I'm pretty sure you'll feel the same once you've had the opportunity to work with them as well.

We wish you and all of your coworkers, family, and friends a happy new year filled with joy and prosperity. And, we offer our heartfelt thanks for allowing us to be a part of it.

Matt Quasius, President
